DIRECTORS' REPORT

The Directors have pleasure in submitting their report together with the audited financial statements of the Group and of the Company for the financial year ended 31 December 2019.

PRINCIPAL ACTIVITIES

The Company is principally engaged in investment holding. The principal activities of its subsidiaries are disclosed in Note 6(a) to the Financial Statements.

There have been no other significant changes in the nature of the activities of the Company and of its subsidiaries during the financial year.

FINANCIAL RESULTS

	Group RM	Company RM
Net profit for the financial year	<u>2,520,445</u>	<u>1,037,715</u>
Attributable to:-		
Owners of the Company	2,289,572	1,037,715
Non-controlling interests	<u>230,873</u>	<u>-</u>
	<u>2,520,445</u>	<u>1,037,715</u>

DIVIDENDS

The amount of dividend declared and paid since the end of the previous financial period was as follows:-

	RM
In respect of financial year ended 31 December 2019 and paid on 10 October 2019	
Interim single tier dividend of RM 0.0016 per share	<u>744,000</u>

The Directors do not recommend any final dividend for the current financial year.

RESERVES AND PROVISIONS

All material transfers to or from reserves or provisions during the financial year are disclosed in the financial statements.

ISSUE OF SHARES AND DEBENTURES

During the financial year, the Company issued 50,000,000 new ordinary shares at an issue price of RM0.08 each for a total cash consideration of RM4,000,000 pursuant to the Initial Public Offering (“IPO”) exercise.

The new ordinary shares issued during the financial year ranked pari passu in all respect with existing ordinary shares of the Company.

The Company did not issue any debenture and did not grant any option to anyone to take up any unissued shares of the Company during the financial year.

DIRECTORS

The Directors who held office during the financial year and up to the date of this report are as follows:-

Tan Teh Jie *
Tan Teh Sheng *
Tan Heng Guan
Datuk Ng Seing Liong
Sim Lai Ly (Appointed on 15 October 2019)

*Directors of the Company and of its subsidiaries

DIRECTORS OF THE SUBSIDIARIES

The Directors who held office (excluding Directors of the Company) during the financial year and up to the date of this report are as follows:-

Christopher Tan Yew Leong
Lok Chyi Yeu

DIRECTORS' INTERESTS IN SHARES

According to the Register of Directors' Shareholdings required to be kept under Section 59 of the Companies Act, 2016 in Malaysia ("the Act"), the interests and deemed interests in the ordinary shares of the Company of those who were Directors at the end of the financial year are as follows:-

	<u>Number of ordinary shares</u>			<u>At 31.12.2019</u>
	<u>At 1.1.2019</u>	<u>Additions</u>	<u>Sold</u>	
<u>The Company</u>				
Direct interest				
- Tan Teh Jie	83,041,520	-	-	83,041,520
- Tan Teh Sheng	84,535,520	-	-	84,535,520
- Tan Heng Guan	87,150,000	-	-	87,150,000

By virtue of their interest in the Company, they are also deemed interested in the shares of the subsidiaries, to the extent that the Company has interest under Section 8 of the Act.

Except as disclosed, none of the other Director in office at the end of financial year held any interest in the shares of the Company or its related corporations during the financial year.

DIRECTORS' FEES AND BENEFITS

During and at the end of the financial year, no arrangement subsisted to which the Company is a party, with the object or objects of enabling the Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Since the end of previous financial period, no Director has received or become entitled to receive any benefit (other than benefits included in the aggregate amount of remuneration received or receivable by the Directors disclosed in the Note 29 to the Financial Statements) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

OTHER STATUTORY INFORMATION

Before the financial statements of the Group and of the Company were made out, the Directors took reasonable steps:-

- (a) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that there were no bad debts to be written off and no provision for doubtful debts was required; and
- (b) to ensure that any current assets which were unlikely to be realised in the ordinary course of business including their values as shown in the accounting records of the Group and of the Company have been written down to an amount which they might be expected so to realise.

OTHER STATUTORY INFORMATION (CONT'D)

At the date of this report, the Directors are not aware of any circumstances:-

- (a) which would render it necessary to write off any bad debts or to make any provision for doubtful debts in the financial statements of the Group and of the Company; or
- (b) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
- (c) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; or
- (d) not otherwise dealt with in this report or the financial statements which would render any amount stated in the financial statements of the Group and of the Company misleading.

At the date of this report, there does not exist:-

- (a) any charge on the assets of the Group and of the Company which have arisen since the end of the financial year which secure the liability of any other person; or
- (b) any contingent liability of the Group and of the Company which has arisen since the end of the financial year.

In the opinion of the Directors:-

- (a) no contingent liability or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group and of the Company to meet their obligations as and when they fall due;
- (b) the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature; and
- (c) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of operations of the Group and of the Company for the current financial year in which this report is made.

INDEMNITY AND INSURANCE COST

There was no indemnity coverage or insurance premium paid for the Directors and Officers of the Group and of the Company during the financial year.

EVENT SUBSEQUENT TO THE REPORTING DATE

The event subsequent to the reporting date is disclosed in Note 39 to the Financial Statements.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Enest Group Berhad, which comprise the statements of financial position as at 31 December 2019 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, as set out on pages 15 to 90.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2019, and of their financial performance and cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards ("IFRSs") and the requirements of the Companies Act, 2016 in Malaysia.

Basis of Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Report on the Audit of the Financial Statements (cont'd)

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	How our audit addressed the key audit matters
<p>Revenue recognition</p> <p>Referring to Note 22 to the Financial Statements, the Group's revenue for the financial year amounted to RM49,998,032.</p> <p>Revenue is regarded as key audit matter because the amount of revenue contributed is significant to the financial statements of the Group and they involved the processing of large volume of transactions.</p> <p>Revenue is recognised through a five steps model by identifying the contracts, identifying performance obligation, determine transaction price, allocate transaction price to performance obligation and recognise revenue.</p> <p>Furthermore, International Standards on Auditing (ISA) 240 presumed that we consider the risk of fraud arising in revenue recognition. Whilst revenue recognition and measurement is not complex for the Group, revenue targets form part of the Group's key performance measures which could create an incentive to record revenue incorrectly.</p> <p>We focused on this area given the magnitude of revenue transactions that occurred.</p>	<p>Our procedures included, amongst others:-</p> <ul style="list-style-type: none"> • Performing substantive tests to verify the revenue recognised; • Performing analytical procedures on the trend of revenue recognised to identify any abnormalities; and • Performing cut-off test around the financial year end to check the revenue is recognised on the correct accounting period. <p>The Group's accounting policies in respect of revenue recognition is outlined in Group's significant accounting policies and disclosures in Notes 3.14 and 22 to the Financial Statements respectively.</p>

Registration No: 201801013622 (1275638 - T)

Report on the Audit of the Financial Statements (cont'd)

Key Audit Matters (cont'd)

Key audit matters	How our audit addressed the key audit matters
<p>Goodwill</p> <p>Referring to Note 8 to the Financial Statements, the Group holds goodwill of RM1,839,979 on the statements of financial position.</p> <p>The determination of the recoverable amount of goodwill is a key judgement area as small changes in assumptions made, notably in respect of the future performance of the business and the discount rates applied to future cash flows projections can result in material different outcomes.</p>	<p>Our procedures included, amongst others:-</p> <ul style="list-style-type: none"> • Evaluating the Directors' future cash flows projections, and the process which they were drawn up, including testing the underlying calculations and comparing them to the latest Directors' approved budgets; and • Challenging the Directors' key assumptions for long term growth rates in the projections by comparing them to historical results, and economic and industry forecasts, and the discount rate used by assessing the cost of capital for the Group. <p>The Group's accounting policies in respect of goodwill is outlined in Group's significant accounting policies and disclosures in Notes 3.1.3 and 8 to the Financial Statements respectively.</p>
<p>Inventories</p> <p>Referring to Note 9 to the Financial Statements, the Group holds inventories of RM5,398,440 on the statements of financial position.</p> <p>Inventories valuation and existence is a significant audit risk as inventories may be held for long periods of time before sold making it vulnerable to obsolescence or theft. This could result in an overstatement of the value of the inventories if the cost is higher than the net realisable value. Furthermore, the assessment and application of inventories provisions are subject to significant management judgement.</p>	<p>Our procedures included, amongst others:-</p> <ul style="list-style-type: none"> • Attending inventories count at the financial year end and to assess the adequacy of controls over the existence of inventories. • Testing sample of inventories items to ensure they were held at the lower of cost and net realisable value. Also evaluating management judgement with regards to the application of provisions to the inventories. <p>The Group's accounting policies in respect of inventories is outlined in Group's significant accounting policies and disclosures in Notes 3.8 and 9 to the Financial Statements respectively.</p>

Report on the Audit of the Financial Statements (cont'd)

Key Audit Matters (cont'd)

There is no key audit matter to be communicated in respect of the audit of the financial statements of the Company.

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the Directors' Report but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with MFRSs, IFRSs and the requirements of the Companies Act, 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group and the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Registration No: 201801013622 (1275638 - T)

Report on the Audit of the Financial Statements (cont'd)

Auditors' Responsibilities for the Audit of the Financial Statements (cont'd)

As part of an audit in accordance with approved standards on auditing in Malaysia and ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:-

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We have communicated with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

We also provided the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Registration No: 201801013622 (1275638 - T)

Report on the Audit of the Financial Statements (cont'd)

Auditors' Responsibilities for the Audit of the Financial Statements (cont'd)

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 2016 in Malaysia, we report that the subsidiaries of which we have not acted as auditors, are disclosed in Note 6(a) to the Financial Statements.

Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act, 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

ENEST GROUP BERHAD
(Incorporated in Malaysia)
AND ITS SUBSIDIARIES

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2019

1. GENERAL INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia. The registered office of the Company is located at Level 15-2, Bangunan Faber Imperial Court, Jalan Sultan Ismail, 50250 Kuala Lumpur. The principal place of business of the Company is located at No. 2B-G, Jalan Semenyih, Bandar Kajang, 43000 Kajang, Selangor Darul Ehsan.

The Company is principally engaged in investment holding. The principal activities of its subsidiaries are disclosed in Note 6(a) to the Financial Statements.

There have been no other significant changes in the nature of the activities of the Company and of its subsidiaries during the financial year.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the Board of Directors on 25 June 2020.

2. BASIS OF PREPARATION

2.1 Statement of compliance

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRSs”), International Financial Reporting Standards (“IFRSs”) and the requirements of the Companies Act, 2016 in Malaysia.

2.2 Basis of measurement

The financial statements of the Group and of the Company are prepared under the historical cost convention, unless otherwise indicated in the summary of significant accounting policies.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and its measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible to the Group and the Company.

2. BASIS OF PREPARATION (CONT'D)

2.2 Basis of measurement (cont'd)

The fair value of an asset or a liability is measured on the assumptions that market participants would act in their economic best interest when pricing the asset or liability.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group and the Company use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to their fair value measurement as a whole:-

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to their fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to their fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group and the Company determine whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to their fair value measurement as a whole) at the end of each reporting period.

The Group has established control framework in respect of measurement of fair values of financial instruments. The Board of Directors has overall responsibility for overseeing all significant fair value measurements. The Board of Directors regularly reviews significant unobservable inputs and valuation adjustments.

For the purpose of fair value disclosures, the Group and the Company have determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy as explained above.

2.3 Functional and presentation currency

These financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional currency and all values are rounded to the nearest RM except when otherwise stated.

2. BASIS OF PREPARATION (CONT'D)

2.4 MFRSs

2.4.1 Adoption of new or revised MFRSs

The accounting policies adopted by the Group and the Company are consistent with those of the prior financial year except for the new and revised MFRSs and IC Interpretations approved by Malaysian Accounting Standards Board (“MASB”) and applicable for current financial year. Application of the new and revised MFRSs and interpretations has no material impact on financial statements of the Group and of the Company except as those explanations as disclosed in Note 4 to the Financial Statements.

Several other amendments are effective for the first time in financial year ended 31 December 2019. However, they do not have any impact to the financial statements of the Group and of the Company.

2.4.2 Standards issued but not yet effective

At the date of authorisation of these financial statements, certain new standards, amendments and interpretations to existing standards have been published by MASB but are not yet effective and has not been early adopted by the Group and the Company.

The management anticipates that all of the relevant pronouncements will be adopted in the Group’s and the Company’s accounting policies for the first period beginning after the effective date of the pronouncements.

The initial application of the new standards, amendments and interpretations are not expected to have any material impact to the financial statements of the Group and of the Company.

2.5 Significant accounting estimates and judgements

Estimates, assumptions concerning the future and judgements are made in the preparation of the financial statements. They affect the application of the Group’s and of the Company’s accounting policies and reported amounts of assets, liabilities, income and expenses, and disclosures made. Estimates and underlying assumptions are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

2. BASIS OF PREPARATION (CONT'D)

2.5 Significant accounting estimates and judgements (cont'd)

Information about significant judgements, estimates and assumptions that have the most significant effect on recognition are measurement of assets, liabilities, income and expenses are discussed below.

2.5.1 Estimation uncertainties

The key assumptions concerning the future and other key sources of estimation uncertainties at the reporting date, that have significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Useful lives of depreciable assets

The management estimates the useful lives of the property, plant and equipment to be within 5 to 99 years and reviews the useful lives of depreciable assets at each reporting date. The management assesses that the useful lives represent the expected utility of the assets to the Group. Actual results, however, may vary due to change in the expected level of usage and technological developments, which may result in an adjustment to the Group's assets.

The management expects that the expected useful lives of the property, plant and equipment would not have material differences from the management's estimation, hence, it would not result in material variance in the Group's profit for the financial year.

The carrying amount of the Group's property, plant and equipment at the end of the reporting date is disclosed in Note 5 to the Financial Statements.

Inventories

Inventories are measured at the lower of cost and net realisable value. In estimating net realisable values, management takes into account the most reliable evidence available at the times the estimates are made. The realisation of these inventories may be affected by market-driven changes that may occur in the future.

The management reviews inventories to identify damaged, obsolete and slow-moving inventories which require judgement and changes in such estimates could result in revision to the valuation of inventories.

The management expects that the expected net realisable values of the inventories would not have material difference from the management's estimation of a net realisable value, hence, it would not result in material variance in the Group's profit for the financial year.

The carrying amount of the Group's inventories at the end of the reporting date is disclosed in Note 9 to the Financial Statements.

2. BASIS OF PREPARATION (CONT'D)

2.5 Significant accounting estimates and judgements (cont'd)

2.5.1 Estimation uncertainties (cont'd)

Provision for expected credit losses (“ECLs”) of financial assets

Credit losses are the differences between all contractual cash flows of the Group and of the Company that are due and the cash flows that it actually expects to receive. An expected credit loss is the probability-weighted estimate of credit losses which requires the Group’s and the Company’s judgement. The expected credit losses are discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

The Group and the Company use a provision matrix to calculate ECLs for receivables. The provision rates are based on days past due for grouping of various customer segments that have similar loss patterns such as geography, customer type and rating, and coverage by letters of credit and other forms of credit insurance.

The provision matrix is initially based on the Group’s and the Company’s historical observed default rates. The Group and the Company will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions.

The Group’s and the Company’s historical credit loss experience and forecast of economic conditions may also not be representative of customers’ actual default rate in the future.

The carrying amount of the Group’s and of the Company’s receivables at the end of the reporting date are disclosed in Notes 6(c), 10 and 11 to the Financial Statements.

Impairment of non-financial assets

An impairment loss is recognised for the amount by which the asset’s or cash-generating unit’s carrying amount exceeds its recoverable amount. To determine the recoverable amount, management estimates expected future cash flows from each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. In the process of measuring expected future cash flows, management makes assumptions about future operating results. The actual results may vary, and may cause significant adjustments to the Group’s assets within the next financial year.

2. BASIS OF PREPARATION (CONT'D)

2.5 Significant accounting estimates and judgements (cont'd)

2.5.1 Estimation uncertainties (cont'd)

Impairment of non-financial assets (cont'd)

In most cases, determining the applicable discount rate involves estimating the appropriate adjustment to market risk and the appropriate adjustment to asset-specific risk factors. These estimates are most relevant to goodwill recognised by the Group. Further details of the carrying values, key assumptions applied in the impairment assessment of goodwill are disclosed in Note 8 to the Financial Statements.

Income taxes

Significant estimation is involved in determining the Group's and the Company's provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group and the Company recognise liabilities based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax and deferred tax provisions in the period in which such determination is made.

2.5.2 Significant management judgement

The following is significant management judgements in applying the accounting policies of the Group that have the most significant effect on the financial statements.

Leases

In applying MFRS 16, management uses judgement in determining the rate to discount the lease payments and assess whether a right-of-use asset is impaired. Furthermore, the Group estimates the lease term and reassess whether it is reasonably certain to exercise an extension option, or not to exercise a termination option, upon the occurrence of either a significant event or a significant change in circumstances.

In most cases, determining the appropriate discount rate involves estimating the appropriate adjustment to market risk and the appropriate adjustment to asset-specific risk factors. In assessing the lease term and the likelihood of any extensions or early terminations, the management evaluates whether such extensions or early terminations would lead to economic benefits for the Group.

Fair value measurement of financial instruments

Significant judgement is involved in determining the appropriate valuation techniques and inputs for fair value measurements where active market quotes are not available.

2. BASIS OF PREPARATION (CONT'D)

2.5 Significant accounting estimates and judgements (cont'd)

2.5.2 Significant management judgement (cont'd)

Fair value measurement of financial instruments (cont'd)

In estimating the fair value of financial asset or financial liability, the Group uses market-observable data to the extent it is available. The management makes maximum use of market inputs, and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in measuring the financial assets and financial liabilities. Where Level 1 inputs are not available, the management uses its best estimate about the assumptions that market participants would make. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the end of the reporting date.

Information about the valuation techniques and inputs used in determining the fair value of various assets are disclosed in the Note 34 to the Financial Statements.

3. SIGNIFICANT ACCOUNTING POLICIES

The Group and the Company apply the significant accounting policies, as summarised below, consistently throughout all periods presented in the financial statements, unless otherwise stated.

3.1 Consolidation

3.1.1 Subsidiaries

Subsidiaries are entities controlled by the Company. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Potential voting rights are considered when assessing control only when such rights are substantive. Besides, the Group considers it has de facto power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return.

Investment in subsidiaries are stated at cost less any impairment losses in the Company's statement of financial position, unless the investment is held for sale or distribution.

Upon the disposal of investment in a subsidiary, the difference between the net disposal proceeds and its carrying amounts is included in profit or loss.

3.1.2 Associate

Associate is entity in which the Group has significant influence, but no control, over their financial and operating policies.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.1 Consolidation (cont'd)

3.1.2 Associate (cont'd)

The Group's investment in its associates are accounted for using the equity method. Under the equity method, investment in an associate is carried in the statements of financial position at cost plus post acquisition changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The share of the result of an associate is reflected in profit or loss. Any change in other comprehensive income of those investees is presented as part of the Group's other comprehensive income. In addition, where there has been a change recognised directly in the equity of an associate, the Group recognises its share of any changes and discloses this, when applicable, in the statements of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate is eliminated to the extent of the interest in the associate.

When the Group's share of profit or loss exceeds its interest in an associate, the carrying amount of that interest including any long-term investment is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate.

The financial statements of the associates are prepared as of the same reporting period as the Group. Where necessary, adjustments are made to bring the accounting policies of the associates in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on the Group's investment in its associate. The Group determines at each end of the reporting period whether there is any objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associates and their carrying value, then recognises the amount in the "share of profit of investments accounted for using the equity method" in profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognise any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

When the Group's interest in an associate decreases but does not result in a loss of significant influence, any retained interest is not re-measured. Any gain or loss arising from the decrease in interest is recognised in profit or loss. Any gains or losses previously recognised in other comprehensive income are also reclassified proportionately to the profit or loss if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.1 Consolidation (cont'd)

3.1.2 Associate (cont'd)

In the Company's separate financial statements, investment in associates are stated at cost less impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is included in profit or loss.

3.1.3 Basis of consolidation

The Group's financial statements consolidate the audited financial statements of the Company and all of its subsidiaries, which have been prepared in accordance with the Group's accounting policies. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group. The financial statements of the Company and of its subsidiaries are all drawn up to the same reporting date.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions are eliminated in full.

Subsidiaries are consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control ceases.

Changes in the Company's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the parent.

Merger method

A business combination involving entities under common control is a business combination in which all the combining entities or business are ultimately controlled by same party or parties both before or after the business combination, and that control is not transitory. The acquisition of Ming Feng Marketing (M) Sdn. Bhd. and Ye Lin Industrial (Shanghai) Co., Ltd; resulted in a business involving common control entities since the management of all the entities which took part in the acquisition were controlled by common Directors and under common shareholders before and immediately after the acquisition, and accordingly the accounting treatment is outside the scope of MFRS 3. For such common control business combinations, the merger accounting principles are used to include the assets, liabilities, results, equity changes and cash flows of the combining entities in the consolidated financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.1 Consolidation (cont'd)

3.1.3 Basis of consolidation (cont'd)

Merger method (cont'd)

Under the merger method of accounting, the results of subsidiary are presented as if the merger had been effected throughout the current and previous periods. The assets and liabilities combined are accounted for based on the carrying amounts from the perspective of the common control shareholders at the date of transfer. On consolidation, the cost of the merger is cancelled with the values of the shares received. Any resulting credit difference is classified as equity and regarded as a non-distributable reserve. Any resulting debit difference is adjusted against any suitable reserve. Any reserves which are attributable to share capital of the merged entities, to the extent that they have not been capitalised by a debit difference, are reclassified and presented as movement in other capital reserves.

Acquisition method

The Group applies the acquisition method for those entities not under common controlled by the Group. Under the acquisition method of accounting, the cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Group elects whether it measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in administrative expenses.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Group elects whether it measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.1 Consolidation (cont'd)

3.1.3 Basis of consolidation (cont'd)

Business combinations and goodwill (cont'd)

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes in the fair value of the contingent consideration which is deemed to be an asset or liability will be recognised in accordance with MFRS 9 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it will not be remeasured. Subsequent settlement is accounted for within equity. In instances where the contingent consideration does not fall within the scope of MFRS 9, it is measured in accordance with the appropriate MFRS.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

3.1.4 Loss of control

When the Group ceases to have control of a subsidiary, the Group derecognises the assets and liabilities, non-controlling interests and other components of equity related to the subsidiary. Surplus or deficit arising from the loss of control is recognised in profit or loss.

Any interest retained by the Group in the entity is remeasured to its fair value at the date when the control is lost and surplus or deficit arising from the remeasurement is recognised in profit or loss. Subsequently, it is accounted for as equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.1 Consolidation (cont'd)

3.1.5 Non-controlling interests ("NCI")

NCI at the end of the reporting date, being the equity in a subsidiary not attributable, directly or indirectly, to the equity holders of the Company, are presented in the consolidated statements of financial position and statements of changes in equity within equity, separately from equity attributable to the owners of the Company. NCI in the results of the Group is presented in the consolidated statements of profit or loss and other comprehensive income as an allocation of the profit or loss and the comprehensive income for the period between NCI and the owners of the Company.

Losses applicable to NCI in a subsidiary are allocated to the NCI even if that results in a deficit balance.

3.2 Property, plant and equipment

All property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses if any. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Cost includes expenditures that are directly attributable to the acquisition of the assets and any other costs directly attributable to bring the asset to working condition for its intended use, cost of replacing component parts of the assets, and the present value of the expected cost for the decommissioning of the assets after their use. All other repair and maintenance costs are recognised in profit or loss as incurred.

Depreciation is recognised on the straight-line method in order to write off the cost of each asset over its estimated useful lives. Other property, plant and equipment are depreciated based on the estimated useful lives of the assets as follows:-

Leasehold land and buildings	Over the lease term at 99 years
Lease of buildings	5 years
Furniture and fittings	10%
Office equipments	10%
Motor vehicle	20%
Tool and equipments	20%
Air-conditioners	10% - 20%
Computers	20%
Electrical and fittings	10%
Plant and machineries	10%
Signboards	10%
Renovations	10% - 20%

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.2 Property, plant and equipment (cont'd)

The residual values, useful lives and depreciation method are reviewed for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable, or at least annually to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

Property, plant and equipment are derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognised in profit or loss in the financial period in which the asset is derecognised.

3.3 Leases

Accounting policies applied until 31 December 2018

The Group as lessee

3.3.1 Operating leases

Lease where the Group does not assume substantially all the risk and benefits of ownership are classified as operating lease, except for property interest held under operating lease, the leased assets are not recognised on the statements of financial position. Property interest held under an operating lease which is held to earn rental income or capital appreciation or both, is classified as investment property and measured using fair value model.

Payment made under operating leases are recognised in profit or loss on straight-line basis over the lease period. Lease incentives received are recognised in profit or loss as an integral part of the total lease expense, over the term of the lease. Contingent rentals are charged to profit or loss in the reporting period in which they are incurred.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.3 Leases (cont'd)

3.3.1 Operating leases (cont'd)

Accounting policies applied from 1 January 2019

The Group as lessee

For any new contracts entered into on or after 1 January 2019, the Group considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

To apply this definition the Group assesses whether the contract meets three key evaluations which are whether:-

- The contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Group.
- The Group has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract.
- The Group has the right to direct the use of the identified asset throughout the period of use. The Group assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

Measurement and recognition of leases as a lessee

At lease commencement date, the Group recognises a right-of-use asset and a lease liability on the statements of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Group also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.3 Leases (cont'd)

3.3.1 Operating leases (cont'd)

Accounting policies applied from 1 January 2019 (cont'd)

The Group as lessee (cont'd)

Measurement and recognition of leases as a lessee (cont'd)

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

On the statements of financial position, right-of-use assets have been included in property, plant and equipment.

3.4 Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired.

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the cash-generating units to which the asset belongs.

If the recoverable amount of the asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. The difference between the carrying amount and the recoverable amount is recognised as an impairment loss in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.4 Impairment of non-financial assets (cont'd)

An impairment loss for an asset is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of this asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years. A reversal of impairment loss for an asset is recognised in profit or loss.

Goodwill is tested for impairment annually at the end of each reporting period, and when circumstances indicated that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than their carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

3.5 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instruments of another entity.

3.5.1 Financial assets

3.5.1.1 Initial recognition and categorisation

At initial recognition, financial assets are either classified and measured at amortised cost, fair value through other comprehensive income ("FVTOCI") and fair value through profit or loss ("FVTPL").

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics, and the Group's and the Company's business model for managing them.

In order for a financial asset to be classified and measured at amortised cost or FVTOCI, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's and the Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

At the reporting date, the Group and the Company have not designated any financial assets at FVTOCI. The Group and the Company carry only financial assets measured at amortised cost and at FVTPL on their statements of financial position.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.5 Financial instruments (cont'd)

3.5.1 Financial assets (cont'd)

3.5.1.1 Initial recognition and categorisation (cont'd)

Financial assets at amortised cost

Financial assets measured at amortised cost if both of the conditions are met:-

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flow; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

FVTPL

Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply.

3.5.1.2 Subsequent measurement

Financial assets at amortised cost

Financial assets at amortised cost are subsequently measured using effective interest method and are subject to impairment. Gains or losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's and the Company's financial assets at amortised cost include trade receivables, most of the other receivables, amount due from a subsidiary and cash and cash equivalents.

FVTPL

Financial assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. The Group and the Company may also irrevocably designate financial assets at FVTPL if doing so significantly reduces or eliminates a mismatch created by assets and liabilities being measured on different bases. Net changes in fair value is recognised at in profit or loss in the period which it arises.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.5 Financial instruments (cont'd)

3.5.2 Impairment of financial assets

The Group and the Company assess on a forward-looking basis the expected credit loss (“ECLs”) for all debt instrument not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all cash flows that the Group and the Company expect to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The maximum period considered when estimating ECLs are the maximum contractual period (including extension options) over which the Group and the Company are exposed to credit risk.

ECLs are measured on either of the following bases:-

- 12-months ECLs: these are losses that are expected to result from possible default events within 12 months after the reporting date; and
- Lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the terms, irrespective of the timing of the default to which ECLs model applies.

For all other financial instruments, the Group and the Company recognise a loss allowance equal to 12-months ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

ECLs are re-measured at each reporting date to reflect changes in the financial instrument’s credit risk since initial recognition. Any change in the ECLs amount is recognised as an impairment gain or loss in profit or loss. The Group and the Company recognise an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt securities that are measured at FVTOCI (recycling), for which the loss allowance is recognised in other comprehensive income and accumulated in the fair value reserve (recycling).

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group and the Company determine that the debtor does not have any assets or sources of income that could generate sufficient cash flows to repay the amount subject to write-off.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.5 Financial instruments (cont'd)

3.5.3 Financial liabilities

3.5.3.1 Initial recognition and categorisation

Financial liabilities are classified, at initial recognition, as liabilities at FVTPL, loans and borrowings, payables, or derivatives financial instruments.

Financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables net of directly attributable transaction cost.

The Group's and the Company's financial liabilities include trade and most of the other payables, amount due to Directors, amount due to a subsidiary, borrowings and bank overdraft.

3.5.3.2 Subsequent measurement

Other financial liabilities measured at amortised cost

Other financial liabilities including borrowings, bank overdraft, amount due to Directors, amount due to a subsidiary, trade and most of the other payables are initially measured at fair value and subsequently measured at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group and the Company have unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting date.

3.5.4 Derecognition

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset have expired or control of the asset is not retained or substantially all of the risk and rewards of ownership of the financial asset are transferred to another party. If the Group and the Company neither transfer nor retain substantially all the risks and rewards of ownership and continue to control the transferred asset, the Group and the Company recognise their retained interest in the asset and associated liability for amounts they may have to pay. If the Group and the Company retain substantially all the risks and rewards of ownership of transferred assets, the Group and the Company continue to recognise the financial asset and also recognise a collateralised borrowing for the proceeds received.

On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in the profit or loss.

The Group and the Company derecognise a financial liability when its contractual obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.5 Financial instruments (cont'd)

3.5.5 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

3.6 Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency rates prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date.

All differences are taken to the profit or loss with the exception of all monetary items that forms part of a net investment in a foreign operation. These are recognised in other comprehensive income until the disposal of the net investment, at which time they are reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising in translation of non-monetary items is recognised in line with the gain or loss of the item that gave rise to the translation difference (translation differences on items whose gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss respectively).

3.7 Foreign operation

Financial statements of foreign subsidiaries with functional currency other than RM are translated into RM for consolidation purpose. Assets and liabilities, including goodwill and fair value adjustments arising in an acquisition, are translated at year-end exchange rates and income and expenses are translated to RM at average rates during the financial year. Foreign currency differences arising from the consolidation are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve, except to the extent that the translation difference is allocated to non-controlling interest.

When interest in a foreign subsidiary is disposed totally or partially, resulting in loss of control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. If the Group disposed part of its interest but retains control, then the relevant proportion of the cumulative amount is reattributed to non-controlling interest.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.7 Foreign operation (cont'd)

When the Group disposes only part of an associate while retaining significant influence, the relevant proportion of the cumulative amount is reclassified to profit or loss.

In the consolidated financial statements, when settlement of a monetary item receivable from or payable to a foreign subsidiary is neither planned nor likely to occur in the foreseeable future, then foreign currency differences arising from such item will form part of the net investment in the foreign subsidiary. Differences of such nature are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve.

3.8 Inventories

Inventories comprises raw materials, packing materials, work-in-progress and finished goods are stated at the lower of cost and net realisable value.

Inventories are determined on first-in-first-out method. Cost of materials includes invoices value of goods purchased and expenditure incurred in acquiring the inventories. Cost of finished goods and work-in-progress comprise raw materials, direct labour and an appropriate proportion of production overhead which include expenditure incurred in bringing them to their existing location and condition.

Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs necessary to make sale. Write-down to net realisable value and inventory losses are recognised as an expense when it occurred and any reversal is recognised in profit or loss in the period in which it occurs.

3.9 Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, bank balances and bank overdraft which are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

Bank overdraft is shown in current liabilities in the statements of financial position.

3.10 Equity

Ordinary shares are recorded at the proceeds received at issuance and classified as equity. Share issuance expense directly related to issuance of equity instrument are accounted for as a deduction from equity, net of any related income tax benefit. Otherwise, they are charged to profit or loss.

Interim dividends to shareholders are recognised in equity in the period in which they are declared. Final dividends are recognised upon the approval of shareholder in a general meeting.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.10 Equity (cont'd)

Retained earnings include all current financial year retained earnings and from acquisition of subsidiaries.

All transactions with owners of the Company are recorded separately within equity.

3.11 Provisions

Provisions are recognised when there is a present legal or constructive obligation that can be estimated reliably, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

Any reimbursement that the Group and the Company can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. Where the effect of the time of money is material, provision are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

3.12 Borrowing costs

Borrowing costs are interest and other costs incurred by the Group in connection with the borrowing of funds. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying assets are recognised in profit or loss using the effective interest method. However, borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of the assets during the period of time that is necessary to complete and prepare the asset for its intended use or sale.

3.13 Contingencies

Where it is not probable that an inflow or an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the asset or the obligation is not recognised in the statements of financial position and is disclosed as a contingent asset or contingent liability, unless the probability of inflow or outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent assets or contingent liabilities unless the probability of inflow or outflow of economic benefits is remote.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.14 Revenue recognition

The Group and the Company recognise revenue from contracts with customers for goods or services based on the five-step model as set out in this standards:-

- i. Identify contracts with a customer. A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria that must be met.
- ii. Identify performance obligations in the contract. A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer either a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.
- iii. Determine the transaction price. The transaction price is the amount of consideration to which the Group and the Company expect to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- iv. Allocate the transaction price to the performance obligations in the contract. For a contract that has more than one performance obligation, the Group and the Company allocate transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group and the Company expect to be entitled in exchange for satisfying each performance obligation.
- v. Recognise revenue when (or as) the Group and the Company satisfy a performance obligation. An asset is transferred when (or as) the customer obtains control of the asset.

The Group and the Company satisfy a performance obligation and recognises revenue over time if the Group's and the Company's performance:-

- i. Do not create an asset with an alternative use to the Group and the Company and have an enforceable right to payment for performance completed to-date; or
- ii. Create or enhance an asset that the customer controls as the asset is created or enhanced; or
- iii. Provide benefits that the customer simultaneously receives and consumes as the Group and the Company perform.

For performance obligations where any one of the above conditions not met, revenue is recognised at a point in time at which the performance obligation is satisfied.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.14 Revenue recognition (cont'd)

When the Group and the Company satisfy a performance obligation by delivering the promised goods or service, it creates a contract based on asset on the amount of consideration earned by the performance. Where the amount of consideration received from a customer exceeds the amount of revenue recognised, this give rise to a contract liability.

Revenue is measured at fair value of consideration received or receivable. The followings describe the performance obligation in contracts with customers:-

Sales of goods

The Group processing and selling bird nest product. All revenue is recognised at a point in time, which is typically on delivery of goods. Goods are sold when (or as) the customer obtains control of the asset. All the contracts are completed at the adoption date. The revenue is recognised net of any related rebates, discounts and tax. The Group shall disaggregate revenue recognised from contracts with customers into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors as disclosed in Note 22 to the Financial Statements.

Rental income

Rental income is accounted for on a straight-line basis over the lease term. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

Dividend income

Dividend income from investment is recognised when the Company's right to receive payment is established.

Management fee

Management fee is recognised when services are rendered.

3.15 Tax expense

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.15 Tax expense (cont'd)

Current tax

Current tax expense is the expected amount of income taxes payable in respect of the taxable profit for the financial year and is measured using the tax rates that have been enacted or substantively enacted by the reporting date. Current tax for current and prior financial periods is recognised in the statements of financial position as liability (or asset) to the extent that it is unpaid (or refundable). Current tax is recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

Deferred tax

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statements of financial position and their tax bases. Deferred tax is not recognised for the temporary differences arising from the initial recognition of goodwill, the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting date.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Indirect tax

Expenses and assets are recognised net of the amount of sales tax, except:-

- When the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of sales tax included

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statements of financial position.

3. **SIGNIFICANT ACCOUNTING POLICIES (CONT'D)**

3.16 **Employee benefits expenses**

Short term employee benefits

Wages, salaries, bonuses and social security contributions are recognised as expenses in the financial year in which the associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by the employees that increase their entitlement to future compensated absences and short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

A provision is made for the estimated liability for leave as a result of services rendered by employees up to the reporting date.

Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into independent entities of funds and will have no legal or constructive obligation to pay further contribution if any of the funds do not hold sufficient assets to pay all employee benefits relating to employee services in the current financial year.

Such contributions are recognised as an expense in the profit or loss as incurred. As required by law, the Group makes such contributions to the Employees Provident Fund ("EPF").

3.17 **Operating segments**

An operating segment is a component of the Group that engages in business activities from which it earns revenues and incurs expenses, including revenues and expenses related to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Executive Directors to determine the resources to be allocated to the segment and to assess its performance.

Segment results that are reported to the Executive Directors include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprised mainly of corporate assets, head office expenses, and tax assets and liabilities.

Segment capital expenditure is the total cost incurred during the financial year to acquire property, plant and equipment.

3. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.18 Related parties

A related party is a person or entity that is related to the Group.

- (a) A person or a close member of that person's family is related to the Group if that person:-
 - (i) Has control or joint control over the Group; or
 - (ii) Has significant influence over the Group; or
 - (iii) Is a member of the key management personnel of the Company, or the Group, and

- (b) An entity is related to the Group if any of the following conditions applies:-
 - (i) The entity and the Group are members of the same group.
 - (ii) The entity is an associate or joint venture of the Group.
 - (iii) Both the Group and the entity are joint ventures of the same third party.
 - (iv) The Group is a joint venture of a third entity and the other entity is an associate of the same third entity.
 - (v) The entity is a post-employment benefit plan for the benefits of employees of either the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly-controlled by a person identified in (a) above.
 - (vii) A person identified in (a)(i) above has significant influence over the entity or is a member of the key management personnel of the entity.
 - (viii) The entity, or any member of a group of which it is a party, provides key management personnel services to the Group.

A related party transaction is a transfer of resources, services or obligations between the Group and its related party, regardless of whether a price is charged.

4. CHANGES IN ACCOUNTING POLICIES

4.1 MFRS 16 Leases

The Group has adopted MFRS 16 on 1 January 2019 using the modified retrospective method which the comparative information was not restated.

Upon the adoption of MFRS 16, the Group recognised lease liabilities in relation to leases which had previously been classified as 'operating leases' under the principles of MFRS 117 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2019. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on 1 January 2019 was 4.40%.

4. CHANGES IN ACCOUNTING POLICIES (CONT'D)

4.1 MFRS 16 *Leases* (cont'd)

4.1.1 Effect of initial application

In summary, the adoption impact of MFRS 16 to the opening balances are as follows:-

Statements of financial position

Group	Note	Impact of change in accounting policy		
		31 December 2018 RM	MFRS 16 adjustments RM	1 January 2019 RM
Asset				
Property, plant and equipment	(1)	2,669,588	408,934	3,078,522
Impact on asset		2,669,588	408,934	3,078,522
Liabilities				
Lease liabilities – current		-	(103,871)	(103,871)
Lease liabilities – non current		-	(309,943)	(309,943)
Impact on liabilities	(2)	-	(413,814)	(413,814)
Equity				
Non-controlling interests		527,777	(398)	527,379
Retained earnings		3,030,849	(4,482)	3,026,367
Impact on equity		3,558,626	(4,880)	3,553,746

Notes

(1) Right-of-use assets have been included in property, plant and equipment. The right-of-use assets represent the right to use of the underlying asset during the lease term. The right-of-use assets are measured at cost less accumulated depreciation and impairment losses if any, and adjusted for any re-measurement of the lease liability.

4. CHANGES IN ACCOUNTING POLICIES (CONT'D)

4.1 MFRS 16 *Leases* (cont'd)

4.1.1 Effect of initial application (cont'd)

Notes (cont'd)

(1) (cont'd)

The adjustment to property, plant and equipment related to right-of-use assets is as follows:-

	Group RM
Operating type leases (MFRS 16 adjustment made in property, plant and equipment)	408,934
Right-of-use assets recognised as at 1 January 2019	<u>408,934</u>

(2) The lease liabilities are measured at present value of the lease payments that are not paid at 1 January 2019 using its incremental borrowing rate. Subsequently, the lease liabilities are adjusted for interest and lease payments, as well as the impact of lease modifications if any.

	Group RM
Operating lease commitments as at 31 December 2018	521,150
(Less): short-term leases recognised on a straight-line-basis as expenses	<u>(100,450)</u>
	420,700
Weighted average incremental borrowing rate as at 1 January 2019	<u>4.40%</u>
Lease liabilities for leases classified as operating type under MFRS 117	<u>413,814</u>

Net carrying amount

Leasehold land and building of the Group have been pledged to a licensed bank as security for banking facilities granted to the Group.

The Directors of the Group are of the opinion that unreasonable expenses would be incurred in segregating the cost of the leasehold land and building.

5. **PROPERTY, PLANT AND EQUIPMENT (CONT'D)**

Included in the net carrying amount of property, plant and equipment are right-of-use assets as follows:-

	Group <u>2019</u> RM
Right-of-use assets	
Leasehold land and building	2,039,191
Lease of building	614,114
Motor vehicle	<u>327,718</u>
	<u>2,981,023</u>

Additions to the right-of-use assets of the Group during the financial year 2019 amounted to RM800,455.

Depreciation charge of right-of-use assets is as follow:-

	<u>2019</u> RM
Leasehold land and building	23,327
Lease of building	185,627
Motor vehicle	<u>81,930</u>
	<u>290,884</u>

<u>Subsidiary of MFMSB</u>				
Dynamic Transforms Sdn. Bhd. ("DTSB")	Malaysia	80	80	Processing and selling edible bird's nest products

* Not audited by Grant Thornton Malaysia PLT.

Acquisition of subsidiaries

2019

On 21 August 2019, the Company acquired the entire equity interest in MFTLSB of 3,000 units of ordinary shares in MFTLSB for a total consideration of RM3,000. As a result of this acquisition, MFTLSB has become wholly-owned subsidiary of the Company.

Consideration, assets recognised and liabilities assumed

The following summarises the major classes of consideration and the recognised amounts of assets acquired and liabilities assumed at the acquisition date:-

	RM
Fair value of consideration	<u>3,000</u>
<u>Fair value of identifiable assets acquired and liabilities assumed</u>	
	RM
Amount due to Directors	(4,762)
Cash and bank balances	3,000
Other payables	<u>(8,304)</u>
	<u>(10,066)</u>

6. **SUBSIDIARIES (CONT'D)**

(a) Investment in subsidiaries (cont'd)

Acquisition of subsidiaries (cont'd)

2019 (cont'd)

Goodwill arising from business combination

Goodwill was recognised as a result of the acquisition as follows:-

	RM
Fair value of consideration	3,000
Fair value of identifiable assets acquired and liabilities assumed	<u>10,066</u>
Goodwill arising on acquisition of a subsidiary	<u>13,066</u>

Net cash outflow arising from acquisition of a subsidiary

	RM
Fair value of consideration paid	3,000
Cash and cash equivalents acquired	<u>(3,000)</u>
	<u>-</u>

On 21 November 2019, the Company had further subscribed for 197,000 units of ordinary shares in MFTLSB, for cash consideration of RM197,000, resisting no changes in equity interest.

Impact of the acquisition on the consolidated statements of profit or loss and other comprehensive income

From date of acquisition, MFTLSB had contributed revenue of RMNil and loss of RM7,061 to the Group. If the acquisition had occurred on 1 January 2019, MFTLSB would have been contributed RMNil to the Group's revenue and loss of RM9,017 for the financial year respectively.

2018

- (i) On 10 July 2018, the Company acquired the entire equity interest in MFMSB of 10,721,600 units of ordinary shares in MFMSB for a total consideration of RM2,075,000 satisfied by issuance of 20,750,000 unit of new ordinary shares of the Company. As a result of this acquisition, MFMSB has become wholly-owned subsidiary of the Company.
- (ii) On 30 August 2018, the Company acquired the entire equity interest in YLIS for a total cash consideration of RM60. As a result of this acquisition, YLIS has become wholly-owned subsidiary of the Company.

6. **SUBSIDIARIES (CONT'D)**

(a) Investment in subsidiaries (cont'd)

Acquisition of subsidiaries (cont'd)

2018 (cont'd)

The consolidated financial statements have been prepared using the merger method to account for the acquisition of MFMSB and YLIS. Merger reserve or deficit are determined as the difference between the cost of merger and nominal value of the share capital of the subsidiaries acquired and recognised in statements of financial position.

The recognised merger deficit at the acquisition date is derived as follow:-

	Group <u>2018</u> RM
Total consideration paid by issuance of shares of the Company	2,075,060
Less: Nominal value of the subsidiaries' share capital	<u>(1,699,952)</u>
Merger deficit	<u>375,108</u>

Impact of the acquisition on the consolidated statements of profit or loss and other comprehensive income

In the financial period when the merger took place, the subsidiaries' profits are included in the Group's profits for the full financial period, regardless of the effective date of merger.

Acquisition of a subsidiary under MFMSB

On 16 April 2018, MFMSB entered into a share purchase agreement ("SPA") to acquire 10% of the issued share capital in DTSB for a consideration of RM299,892 via issuance of 321,600 units of new ordinary shares of MFMSB.

On 30 May 2018, MFMSB entered into a supplemental letter to the SPA to acquire 70% of issued share capital in DTSB for a total cash consideration of RM2,100,000. Upon completion of this acquisition, DTSB had become subsidiary of MFMSB.

Consideration, assets recognised and liabilities assumed

The following summarises the major classes of consideration and the recognised amounts of assets acquired and liabilities assumed at the acquisition date:-

	RM
Fair value of consideration	<u>2,399,892</u>

6. **SUBSIDIARIES (CONT'D)**

8. **GOODWILL**

	Group	
	<u>2019</u>	<u>2018</u>
	RM	RM
Cost		
At 1 January	1,839,979	-
Acquisition of a subsidiary	<u>13,066</u>	<u>1,839,979</u>
At 31 December	<u>1,853,045</u>	<u>1,839,979</u>
Accumulated impairment		
At 1 January	-	-
Impairment loss recognised	<u>(13,066)</u>	<u>-</u>
At 31 December	<u>(13,066)</u>	<u>-</u>
	<u>1,839,979</u>	<u>1,839,979</u>

The recoverable amount of the goodwill is determined from value-in-use calculation. The key assumptions for the value-in-use calculation are those regarding the discount rate, growth rates and expected changes to selling prices and direct costs during the period. The Directors estimate discount rate using pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the goodwill. The growth rates and changes in selling prices and direct costs are based on expectations of future changes in the market.

The Group prepares cash flow forecasts derived from the most recent financial budgets approved by the Directors for the next 1 year and extrapolates cash flows for the following 4 years based on estimated growth rate of 5% (2018: 5%) per annum. The discount rate used is 5% (2018: 5%) per annum.

9. **INVENTORIES**

	Group	
	<u>2019</u>	<u>2018</u>
	RM	RM

The foreign currency exposure profile of cash and bank balances is as follow:-

	Group	
	<u>2019</u> RM	<u>2018</u> RM
RMB	<u>284,439</u>	<u>2,256</u>

14. **CAPITAL AND RESERVES**

14.1 **Share capital**

	Number of ordinary shares		Amount	
	<u>2019</u> Unit	<u>2018</u> Unit	<u>2019</u> RM	<u>2018</u> RM
Group and Company				
<u>Issued and fully paid-up:-</u>				
At 1 January/9 April 2018 (date of incorporation)	415,000,040	2	2,075,002	2
Pursuant to IPO	50,000,000	-	4,000,000	-
Pursuant to acquisition of subsidiaries	-	20,750,000	-	2,075,000
Transaction cost of share issue	-	-	(643,730)	-
Shares split	-	<u>394,250,038</u>	-	-
At end of financial year/ period	<u>465,000,040</u>	<u>415,000,040</u>	<u>5,431,272</u>	<u>2,075,002</u>

During the financial year, the Company issued 50,000,000 units of new ordinary shares at an issue price of RM0.08 each for a total cash consideration of RM4,000,000 pursuant to IPO.

The new ordinary shares issued in current financial year and previous financial period rank pari passu in all respects with the existing ordinary shares of the Company.

The holders of ordinary shares are entitled to receive dividends as and when declared by the Company. All ordinary shares carry one vote per share without restrictions and rank equally with regard to the Company's residual assets.

14.2 **Merger deficit**

The merger deficit arises as and when the combination take place, it comprises the difference between the cost of merger and the nominal value of shares acquired in MFMSB and YLIS as disclosed in Note 6(a) to the Financial Statements.

14. CAPITAL AND RESERVES (CONT'D)

14.3 Foreign currency translation reserve

Foreign currency translation reserve represents exchange differences arising from translation of financial statements of foreign operations whose functional currencies differed from the Group's presentation currency.

15. BORROWINGS

	Group	
	<u>2019</u>	<u>2018</u>
	RM	RM
<u>Current</u>		
Secured:-		
Term loans	<u>225,698</u>	<u>211,157</u>
<u>Non-current</u>		
Secured:-		
Term loans		
- Between 2 to 5 years	1,003,652	999,120
- More than 5 years	<u>629,305</u>	<u>861,642</u>
	<u>1,632,957</u>	<u>1,860,762</u>
	<u>1,858,655</u>	<u>2,071,919</u>

34. FINANCIAL INSTRUMENTS (CONT'D)

Financial risk management objectives and policies

Financial risks

The Group and the Company are exposed to financial risks arising from their operations and the use of financial instruments. Financial risk management policy is established to ensure that adequate resources are available for the development of the Group's and of the Company's business whilst managing their risks. The Group and the Company operate within clearly defined policies and procedures that are approved by the Board of Directors to ensure the effectiveness of the risk management process.

The main areas of financial risks faced by the Group and the Company, and the policy in respect of the major areas of treasury activity are set out as follows:-

(a) Credit risk

Credit risk refers to the risk that a counterparty will default in its contractual obligations resulting in financial loss to the Group and to the Company. The Group and the Company adopt the policy of dealing with customers of appropriate standing to mitigate credit risk and customers who wish to trade on credit terms are subject to credit evaluation. Receivables are monitored on an ongoing basis to mitigate risk of bad debts. For other financial assets, the Group and the Company adopt the policy of dealing with reputable institutions.

Receivables

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., customer type and rating and coverage by collateral). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Generally, trade receivables are written-off if the Directors deem them uncollectable. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets.

The Group and the Company have not recognised any loss allowance as they are creditworthy customers with good payment records with the Group and the Company. The risk of default is expected to be close to zero as all customers have high quality external credit ratings with no history of default.

34. **FINANCIAL INSTRUMENTS (CONT'D)**

Financial risk management objectives and policies (cont'd)

Financial risks (cont'd)

The main areas of financial risks faced by the Group and the Company, and the policy in respect of the major areas of treasury activity are set out as follows (cont'd):-

(a) **Credit risk (cont'd)**

Receivables (cont'd)

The ageing analysis of trade receivables are as follows:-

	Group	
	<u>2019</u>	<u>2018</u>
	RM	RM
Neither past due nor impaired	2,591,728	27,301
Past due but not impaired		
- 0-30 days	463,367	57,481
- 31-60 days	533,210	71,169
- 61-90 days	103,855	168,100
- more than 90 days	<u>19,235</u>	<u>70,125</u>
	<u>3,711,395</u>	<u>394,176</u>

The Group and the Company continuously monitor credit standing of customers and other counterparties, identified either individually or by group and incorporate this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used.

The Group's and the Company's management consider that all the above financial assets that are not impaired or past due for each of the reporting dates under review are of good credit quality. None of the Group's and the Company's financial assets are secured by collateral or other credit enhancements and none of the carrying amount of financial assets whose terms have been renegotiated that would otherwise be past due or impaired.

34. **FINANCIAL INSTRUMENTS (CONT'D)**

Financial risk management objectives and policies (cont'd)

Financial risks (cont'd)

The main areas of financial risks faced by the Group and the Company, and the policy in respect of the major areas of treasury activity are set out as follows (cont'd):-

(a) **Credit risk (cont'd)**

Receivables (cont'd)

Credit risk concentration

The credit risk concentration profile by country on trade receivables of the Group as at the reporting date are as follows:-

	<u>2019</u> RM	<u>2018</u> RM
By country:-		
Australia	475,364	171,473
China	3,235,281	170,789
Malaysia	<u>750</u>	<u>51,914</u>
	<u>3,711,395</u>	<u>394,176</u>

In respect of trade and other receivables, the Group is not subjected credit risk exposure to a single counterparty or a group of counterparties having similar characteristics, except below mentioned.

	<u>2019</u>		<u>2018</u>	
	RM	%	RM	%
Sales to top 9 (2018: 6) customers	<u>3,137,060</u>	<u>85%</u>	<u>364,855</u>	<u>93%</u>

Based on historical information about customer default rates, management considers the credit quality of trade receivables that are past due but not impaired to be good.

Intercompany loans and advances

The maximum exposure to credit risk is represented by its carrying amount in the statements of financial position.

The Company provides unsecured advances to its subsidiary and monitor the results of the subsidiary regularly.

As at the end of the reporting period, there was no indication that the advances to the subsidiary are not recoverable.

34. **FINANCIAL INSTRUMENTS (CONT'D)**

Financial risk management objectives and policies (cont'd)

Financial risks (cont'd)

The main areas of financial risks faced by the Group and the Company, and the policy in respect of the major areas of treasury activity are set out as follows (cont'd):-

(a) **Credit risk (cont'd)**

Cash and bank balances

The credit risk for cash and cash equivalents are considered negligible, since the counterparties are reputable banks with high quality external credit ratings and have no history of default.

(b) **Liquidity risk**

Liquidity risk is the risk that the Group and the Company will not be able to meet their financial obligations as and when they fall due, due to shortage of funds.

In managing its exposures to liquidity risk arises principally from its various payables, amount due to Directors, lease liabilities, borrowings and bank overdraft, the Group and the Company maintain a level of cash and cash equivalents and bank facilities deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet their liabilities when they fall due.

The Group and the Company aim at maintaining a balance of sufficient cash and deposits and flexibility in funding by keeping diverse sources of committed and uncommitted credit facilities from various banks.

The summary of the maturity profile based on the contractual undiscounted repayment obligations are as below:-

	← Maturity →			Total contractual cash flows RM
	Current On demand/ less than <u>1 year</u> RM	← Non-current → 2 to 5 <u>years</u> RM	More than <u>5 years</u> RM

Total undiscounted financial liabilities	<u>282,742</u>	<u>-</u>	<u>-</u>	<u>282,742</u>

34. **FINANCIAL INSTRUMENTS (CONT'D)**

Financial risk management objectives and policies (cont'd)

Financial risks (cont'd)

The main areas of financial risks faced by the Group and the Company, and the policy in respect of the major areas of treasury activity are set out as follows (cont'd):-

(b) **Liquidity risk (cont'd)**

The summary of the maturity profile based on the contractual undiscounted repayment obligations are as below (cont'd):-

	← Maturity →			Total contractual cash flows RM
	Current On demand/ less than <u>1 year</u> RM	← Non-current → 2 to 5 <u>years</u> RM	More than <u>5 years</u> RM	
Company (cont'd)				
<u>2018</u>				
Non-derivative financial liabilities				
<u>Unsecured:-</u>				
Other payables	34,007	-	-	34,007
Amount due to Directors	<u>60</u>	<u>-</u>	<u>-</u>	<u>60</u>
Total undiscounted financial liabilities	<u>34,067</u>	<u>-</u>	<u>-</u>	<u>34,067</u>

The above amounts reflect the contractual undiscounted cash flows, which may differ from the carrying values of financial liabilities as at the reporting date.

(c) **Foreign currency risk**

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group is exposed to foreign currency risk on financial assets and financial liabilities that are denominated in a currency other than the functional currency of Group. The currency giving rise to this risk is primarily Chinese Renminbi ("RMB").

34. **FINANCIAL INSTRUMENTS (CONT'D)**

Financial risk management objectives and policies (cont'd)

Financial risks (cont'd)

The main areas of financial risks faced by the Group and the Company, and the policy in respect of the major areas of treasury activity are set out as follows (cont'd):-

(c) **Foreign currency risk (cont'd)**

Carrying amounts of the Group's exposure to foreign currency risk are as follows:-

Group	<u>RMB</u> RM	<u>Total</u> RM
Financial assets/Net exposure 2019	<u>1,378,561</u>	<u>1,378,561</u>
Financial assets/Net exposure 2018	<u>173,046</u>	<u>173,046</u>

Foreign currency sensitivity analysis

The following table demonstrates the sensitivity of the Group's profit before tax to a reasonably possible change in the RMB exchange rates against the respective functional currency of the Group entities, with all other variables held constant.

	Group	
	<u>2019</u> RM	<u>2018</u> RM
RMB/RM - strengthened 3% (2018: 3%)	41,357	5,191
- weakened 3% (2018: 3%)	<u>(41,357)</u>	<u>(5,191)</u>

The assumed movement in the above foreign currency rate for the foreign currency exchange rate sensitivity analysis is based on the prudent estimate of the current market environment.

The exposure to foreign exchange risk varies during the financial years depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's exposure to foreign currency risk.

(d) **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of change in market interest rates.

The Group's floating rate borrowings are exposed to a risk of change in its fair value due to changes in interest rates. Short term receivables and payables are not significantly exposed to interest rate risk.

34. **FINANCIAL INSTRUMENTS (CONT'D)**

Financial risk management objectives and policies (cont'd)

Financial risks (cont'd)

The main areas of financial risks faced by the Group and the Company, and the policy in respect of the major areas of treasury activity are set out as follows (cont'd):-

(d) **Interest rate risk (cont'd)**

The Group manages its interest rate exposure by maintaining a prudent mix of fixed and floating rate borrowings. The objectives for the mix between fixed and floating rate borrowings are set to reduce the impact of upward changes in interest rates while enabling benefits to be enjoyed if interest rates fall.

The carrying amount of the Group's significant interest-bearing financial instruments, as at the reporting date are as follows:-

	Group	
	<u>2019</u>	<u>2018</u>
	RM	RM
Fixed rate instrument		
<u>Financial liability</u>		
Lease liabilities/Net financial liability	<u>996,868</u>	<u>-</u>
Floating rate instruments		
<u>Financial liabilities</u>		
Borrowings	1,858,655	2,071,919
Bank overdraft	<u>431,856</u>	<u>713,840</u>
Net financial liabilities	<u>2,290,511</u>	<u>2,785,759</u>

The following table illustrates the sensitivity of profit to a reasonably possible change in interest rates of +/-25 basis points ("bp"). These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

	Group	
	<u>2019</u>	<u>2018</u>
	RM	RM
Effect on profit for the financial year/period		
+ 0.25%	(5,726)	(6,964)
- 0.25%	<u>5,726</u>	<u>6,964</u>

The Group does not account for any fixed rate financial liabilities at fair value through profit or loss, and the Group does not designate derivatives as hedging instruments under a fair value hedge accounting model. Therefore, a change in interest rates at reporting date would not affect profit or loss.

34. **FINANCIAL INSTRUMENTS (CONT'D)**

Financial risk management objectives and policies (cont'd)

Financial risks (cont'd)

The main areas of financial risks faced by the Group and the Company, and the policy in respect of the major areas of treasury activity are set out as follows (cont'd):-

(e) **Price risk**

The Group and the Company are exposed to equity price risk due to fluctuation in prices of quoted securities under investments in unit trust. The movements in quoted price of these securities are monitored continuously.

An increase or decrease of 1% (2018: 1%) in the prices of the quoted securities would result in an increase or decrease of RM20,305 (2018: RM39,504) and RM20,126 (2018: RMNil) to the profit or loss of the Group and of the Company respectively.

35. **FAIR VALUE MEASUREMENT**

The carrying amounts of financial assets and financial liabilities of the Group and of the Company at the reporting date approximate their fair values due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the reporting date.

35.1 **Fair value measurement of financial instrument**

The following table summaries the method, used in determining the fair value of financial instrument of the Group on a recurring basis at 31 December 2019 and 31 December 2018:-

Group

Financial instrument	Fair value as at		Fair value hierarchy	Valuation techniques and key inputs
	2019 RM	2018 RM		
Financial assets at FVTPL:- Quoted investment in Malaysia	<u>Assets</u> 2,030,467	<u>Assets</u> 3,950,406	Level 2	Quoted bid prices in similar market

Company

Financial instrument	Fair value as at		Fair value hierarchy	Valuation techniques and key inputs
	2019 RM	2018 RM		
Financial assets at FVTPL:- Quoted investment in Malaysia	<u>Assets</u> 2,012,558	<u>Assets</u> -	Level 2	Quoted bid prices in similar market

36. CAPITAL MANAGEMENT

The primary objective of the Group's and the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratio in order to support its business and maximise shareholders' value.

The Group and the Company manage its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group and the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. There were no changes in the Group's and the Company's approach to capital management during the financial year/period.

37. COMPARATIVE INFORMATION

The comparative information is from 9 April 2018 (date of incorporation) to 31 December 2018. Hence, it is not comparable.

38. EVENTS DURING THE REPORTING YEAR

On 28 March 2019, WYNCORP Advisory Sdn. Bhd. ("WYNCORP") on behalf of the Board of Directors of Enest Group Berhad ("Enest") had submitted an application to Bursa Malaysia Securities Berhad ("Bursa Securities") for the proposed admission of Enest to the Official List and the listing and quotation of entire enlarged issued share capital of Enest on the LEAP Market of Bursa Securities ("Listing Application").

On the same date, WYNCORP on behalf of Enest had deposited the Information Memorandum dated 28 March 2019 ("Information Memorandum") with the Securities Commission Malaysia.

On 2 April 2019, the Company Secretaries on behalf of Enest had lodged the Information Memorandum with the Companies Commission of Malaysia.

On 18 April 2019, Bursa Securities has resolved to approve the Listing Application.

On 7 August 2019, the Company had completed the Initial Public Offering ("IPO") and listed on the LEAP Market of BURSA Malaysia Securities Berhad.

39. EVENT SUBSEQUENT TO THE REPORTING DATE

The recent outbreak of the Coronavirus Disease 2019 (COVID-19) since end 2019 has seen significant cases increased worldwide which prompted the World Health Organisation to declare it as a pandemic on 11 March 2020. A series of precautionary and control measures have been and continued to be implemented across the world. The Malaysian Government imposed the Movement Control Order (“MCO”) from 18 March 2020 to 12 May 2020, Conditional Movement Control Order (“CMCO”) from 4 May 2020 to 9 June 2020 and Recovery Movement Control Order (“RMCO”) from 10 June 2020 to 31 August 2020. Consequently, these restrictions are expected to have material adverse effects on the Malaysia’s economy for 2020. The deterioration of world economy has also prompted additional uncertainties to the business of the Group and of the Company in 2020.
